Three Q	questions:
1.	If there were one thing that you could identify that is difficult for you to let go of, what would it be?
2.	Are you presently operating in the grace that was given to you being extended to others?
3.	Does peace have the right of way to rule and reign in your soul?

In order for our souls to prosper we must apply practical wisdom

1.	We must develop a superior work ethic in all things
2.	We must apply wisdom to our speech
3.	We must be a problem-solver that looks for godly solutions
4.	We must be a team player that believes everyone has something to contribute that is significant
5.	We must be mature spiritually, emotionally, intellectually and socially
6.	We must be ready to confront hardship and challenges in our lives and those around us
7.	We must be willing to embrace greater responsibility that may take us out of our comfort zone
8.	We must be a person that God can trust
9.	We must be willing to make permanent changes in our lives without regret
10.	We must realize the gate of change can only be opened from the inside
